

Aug 26 - Aug 31, 2018

2018 XV International Symposium on Biological Control of Weeds

Engelberg, Switzerland

<https://isbcw-2018.com/>

Aug 26 - Aug 30, 2018

NCER 2018 National Conference on Ecosystem Restoration

New Orleans Marriott, New Orleans, Louisiana

<http://conference.ifas.ufl.edu/ncer2018/>

September 4 & 5, 2018

Alberta Invasive Species Council's fundraising casino

Starlight casino, WEM

execdirector@abinvasives.ca

September 4 - 7, 2018

NEOBIOTA 2018
10th International Conference on Biological Invasions:
New Directions in Invasion Biology
4th – 7th September 2018 | Dun Laoghaire, Dublin, Ireland

with aquatic invasive session on September 3, 2018 featuring Dr. Tony Ricciardi, Dr. Dan Simberloff & others. <http://www.neobiota2018.org/ehome/index.php?eventid=166837&>

The Aquinivad-ED Session Keynote Speakers

Professor David Lodge

Professor David Lodge is one of the world's leading experts on aquatic invasive species, with extensive research experience on a wide variety of vectors, taxonomic groups, and ecosystems. His research focuses on ecological forecasting to better inform environmental risk assessment, natural resource management, and policy. Lodge has testified numerous times before the U.S. Congress, served as an expert witness in federal court, and served as the first chair of the U.S. government's national Invasive Species Advisory Committee (2009-11). He led the freshwater biodiversity component of the United Nations' Millennium Ecosystem

Professor Tony Ricciardi

Dr. Anthony (Tony) Ricciardi is Professor of Invasion Ecology in the Keppath Museum and the McGill School of Environment at McGill University and a McGill Trustee Fellow in Science and Public Policy. He is an editorial board member for the journal *Biological Invasions* and the journal *Diversity and Distributions*. From 2008 to 2016, he served on the scientific committee of the Canadian Aquatic Invasive Species Network – an NSERC research group that assesses the risks and mechanisms of invasion in Canada's lakes, rivers and coastal waters.

Professor Dan Simberloff

Prof. Daniel Simberloff is the Nancy Gore Hunger Professor of Environmental Studies at the University of Tennessee. He received his A.B. (1964) and Ph.D. (1968) from Harvard University and was a faculty member at Florida State University from 1968 through 1997, when he joined the Department of Ecology and Evolutionary Biology at the University of Tennessee. His publications number ca. 500 and center on ecology, biogeography, evolution, and conservation biology; much of his research focuses on species, consequences, and measurement of historical invasions. His
