

The Alberta Invasive Species Council (AISC) is a registered not-for-profit organization committed to reducing the impacts of invasive species on Alberta and Albertans. Formed in 2006, AISC has been the leading voice in Alberta on invasive species issues and their management. The AISC vision is “Prevention Inspired; Alberta Protected”.

Terrestrial Technician - Invasive Species (Seasonal)

The Invasive Species Technician (seasonal) is responsible for assisting with communications, assisting with AISC project implementation, and the biocontrol release program.

Key responsibilities include:

- Assisting with the collection and release of insect biological control agents.
- Assisting with program delivery for AISC’s new and existing outreach programs.
- Revising and editing new and existing content.
- Revising and adhering to AISC’s OH&S program.
- Assisting other AISC staff with all aspects of AISC operations.

Successful candidates will have:

- Education in a related field (agriculture, biology, ecology, or environmental sciences).
- Excellent writing, editing, communication and time management skills.
- Experience conducting fieldwork and handling insects.
- Experience in communications and public engagement.
- Strong digital literacy.
- Knowledge of invasive species and their impacts.
- Valid Standard First Aid and a valid Driver’s Licence.
- Ability to work some weekends and overtime as some work is weather dependent.

This is a full-time, seasonal position with possibility of extension (4 months: May through August with anticipated start date of May 5th, 2025) and will involve both remote field and office work. The successful candidate will be expected to provide a home office. Compensation is \$23/hour for 37 hours per week with no benefits. The successful candidate must be located within Lethbridge.

To apply, submit a cover letter and resume in one digital file to communications@abinvasives.ca by **5:00 pm on February 14, 2025**.
